CAMP AGE GROUPS:

Discovery (Grades K-2): Every day is an adventure for our Discovery campers! These young kids have a very active imagination, are full of creativity, and love to play. Your child will meet new friends, play interactive games, create arts and crafts projects, swim, explore, and participate in imaginative play. A 1:5 staff to camper ratio will ensure your little discoverers will get the attention they need. Through specially trained staff, age-specific safety precautions, and a well rounded curriculum, we create a nurturing environment that will aid in the physical, social, and emotional development of your child.

Leaders in Training (Grades 7-10): Our oldest campers will work to develop their leadership, teamwork, and decision making skills through this camp based training program. This program also helps your young leaders prepare for future work as camp counselors. Leaders will work closely with our experienced staff who will guide them in their journey. Your child will serve as a role model for the entire camp, and is thus required to submit an application and participate in an interview their first scheduled camp session. Only those truly committed to being a positive role model and developing their leadership skills should register.

Sizzlers (Grades 3-6): Sizzlers aged campers are learning more independence and responsibility every day. Your child will be introduced to new activities designed to allow them to challenge themselves and work as a team. Your child will meet new friends, develop new relationships, participate in fun and interactive games, create arts and crafts projects, swim, and more. A 1:10 staff to camper ratio will ensure your children will get the attention they need. Through specially trained staff, age specific safety precautions, and a well rounded curriculum, we create a nurturing environment that will aid in the physical, social, and emotional development of your child.

WILD FLOWER WALKS

The forest surrounding our Green River Swim Area is a unique treasure among natural settings in its abundance of Spring Ephemerals. Spring Ephemerals are the first wildflowers to push their way up through the thawing forest floor. Their delicate blossoms provide nourishment for many of the early insects. Ephemerals typically grow, bloom, and form their seeds above ground during a very brief time. From their leaves, to their blossoms, even to their interesting names, Spring Ephemerals are an absolute delight to nature enthusiasts. Please join us on a wildflower walk to see Dutchman's breeches, squirrel corn, toothwort, bloodroot, trillium, and so many others.

Wear sturdy, comfortable walking/hiking shoes, and layers of clothing to accommodate the weather. Although much of our time will be on relatively flat ground, the hike is of moderate difficulty. Participants are encouraged to bring a water bottle and your favorite means of identifying native plants.

If the unpredictable weather happens to cause the Ephemerals to finish blooming before our walks, there will still be much to see, sadly focused on the invasive species that are threatening the forest.
